## LUXURY OUTDOOR MOVIE THEATERS

“WE GROW AUDIOVISUAL DREAMS  
OFF THE GROUND”

CREATED IN FRANCE, INSTALLED WORLDWIDE

[WWW.ECLIPSE-CINEMA.COM](http://WWW.ECLIPSE-CINEMA.COM)

## FOCUS ON ECLIPSE 360 LED

Simply the Largest exterior private screen on Earth

Scheduled for June 2018, the installation of the first fully retractable ECLIPSE 360 inches screen is actually in progress for a private customer in the South of France.

This will be the largest private exterior LED screen in the world (8m x 4,5m) and it comes with an outstanding 7.1 Dolby Exterior sound system from JBL high-end exterior series.

Other Key figures are :

- Only one remote to control the complete system : screen lift system, content sources, volume, brightness intensity...
- Extra brightness of 6000 Nits for an excellent viewing, even in direct sunlight
- 3,9mm pitch exterior LED Panels

## ECLIPSE SCREEN RANGE

**MOAÏ HAVE MAJESTIC LOOKS, WITH LOT OF STORIES TO TELL  
...SO DO OUR SCREENS**

**ECLIPSE 360**  
*LED or VP*

**8m x 4,5m picture size**

**ECLIPSE 273**  
*LED or VP*

**6 x 3,5m picture size**

**ECLIPSE 185**  
*LED or VP*

**4 x 2,5m picture size**

We have 3 size of screen to choose from, depending on budget of course, but also on the optimal distance between the audience and the screen. All are giant screens since we don't make outdoor TVs, we create Outdoor Movie Theaters.

You can choose between 2 display technologies : LED Wall and Projection Display (VP range). We'll present you both of them.

## KINEMATICS : FULLY RETRACTABLE SCREENS

Private outdoor cinema sessions (and TV Sport events, TV shows and concerts) can be amazing experiences to live and to share with friends and family, in the daytime or under the stars.

But once the session is over, a giant screen can be unsightly. That's why all our screens, as large as they are, are fully retractable and go completely underground in their waterproof structure to become invisible... until the next session.

## WHO WE ARE

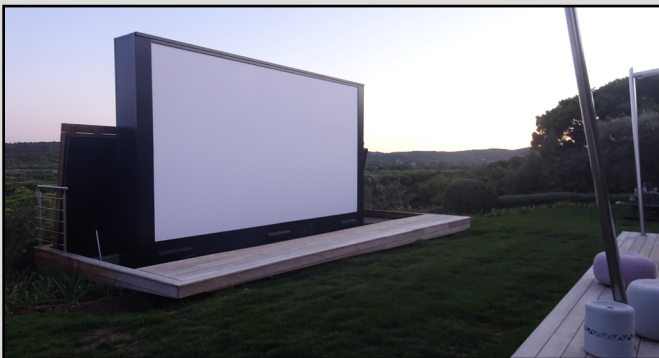

ECLIPSE brings together our passionate French Team and long term privileged Partners. All of us are dedicated to make your Audiovisual Dreams come true.

Altogether, we share all the fields of competence and expertise to create bespoke luxury outdoor movie theaters worldwide. From on-site visit and photorealistic renderings to the first open-air cinema session, we manage your project from A to Z.

## OUR MISSION

Our dedicated Team and Partners are all driven by the will to create amazing experience for our customers. But we also always keep in mind that it has to be visible only on demand, not to disturb the natural beauty of the garden or the view.

Our mission is to combine aesthetism, technical expertise, ease of use, high definition screens viewable in direct sunlight or at night, high fidelity exterior sound system.

*We bring you the perfect solution for exclusive Open-air Cinema experience*

Because we think a giant screen is not enough to make you live a complete amazing experience, all our projects come with outstanding outdoor audio systems. Front speakers and subwoofers are integrated in the screen structure and rear speakers can be hidden in vegetation or fully retractable underground.

Bespoke high class outdoor furniture can also be proposed by our renown partners.
